Landon Gavin
Front-End Developer

Developer with a passion for scalability and developing new skills. I enjoy working with a small agile team in an ambitious environment.

Skills & Tools

Typescript	Java/C#	AEM5/6	Sitecore 9	SCSS/SASS/CSS
ECMAScript/JS	Angular2+/cli	Node.js	Spring Boot	postgresql/sql
Google Firebase	nginx	jQuery	nosql	git
webpack	RESTful web	rxjs	vuejs2	.NET Framework
.NET Core	Agile	Sitecore 9		

Environments

OSX	CentOS 7	Windows	Jetbrains Suite	Eclipse
Visual Studio	VSCode	Azure Devops		

Current Employment

Humana

Application Developer - *2018 - Present*

Skills Used: Typescript, Vue.js, C# .NET Framework/core, webpack, SASS,, Windows, VSCode, Visual Studio, Sitecore 9,

Work across multiple agile teams to build modern web components (vue.js) and apis (.net framework/core 2) to bring web experiences closer to the users and business. Spearheaded teams transition to modern javascript frameworks and RESTful apis to develop reusable consumable applications that integrated with a CMS.

Previous Employment

Rivera Consulting Group

Software/Web Developer for goarmy.com - *2013 - Present*
Skills Used: Java, AEM/CQ, OSGi Bundles, Javascript, jQuery, jQuery UI, HTML, CSS, OSX, Eclipse, Idea

Worked with a small dev team of three to update and maintain a site that generates over one-million users per month. Helped deliver and integrate large projects into existing infrastructure (3rd-party/agency integrations). Built OSGi bundles to better interface with the team's growing needs. Goarmy was built on the AEM stack and the frontend was built with compiled JSPs and a mix of vanilla JS, mostly jQuery.

Personal Work/Freelance

chiefsretro.com - *eCommerce Platform* - *March, 2017 - June,2017*
